BEAUTY FINDS IT'S PURPOSE IN OBJECTS WITH THE HIGHEST CRAFTSMANSHIP

Stax Living stems from the aspiration to imbue every space, with the authentic, creative and innovative spirit that has inspired this brand. We aim to create the perfect setting where aesthetics meet emotion. A reverent space, beckoning your soul to return time and again.

Crafting beauty is an artistic process that begins with the selection of raw materials, which hold endless opportunities. The task of an artist is to shape and mold them until they possess a soul. The secret lies in the details like weaving, inlays, reliefs, blending unusual materials, and careful hand stitching that make up the core of the Stax Living philosophy.

OUR IDENTITY

The Stax Living brand mark is inspired by the modular, interchangeable nature of the brand's products. The custom type works as a modular unit that can be stacked in multiple ways to fill the ideal space, mimicking the innovation and creativity that drives the brand.

PRIMARY LOGO

These are our Logo variants. The brand colours can be applied to the Logo in the following way. Feel free to use any of these variants to represent the brand based on your requirement.

Always attempt to use the primary (horizontal) logo wherever possible.

In the interest of remaining adaptive, we also allow for a version of the Logo to be used on brand colours.

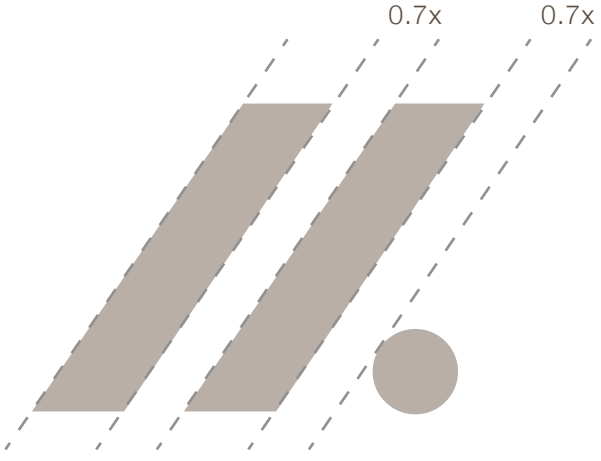

The greyscale Logo is normally used when printing or rendering in colour is not an option.

The identity also has a brand mark that can be used across assets whenever required. The elements 'encasing' the type close up to form a strong andunique visual monogram.

The Brand Mark has been created with a certain balance that needs to be maintained. The spacing between the elements needs to be 0.7x of the height of a single element as shown below.
